A groundswell to get Vince Cable into our economy's driving seat. Because good economic sense makes bloody good sense for the UK in times like these.

“In Vince Cable We Trust” is an independent, grass roots campaign with the aim of making Vince Cable Chancellor of the Exchequer following the 2010 election.

We aim to achieve this by:

1. Instigating conversations around the need for a qualified candidate to hold the position of Chancellor.
2. Increasing visibility of Vince Cable amongst the electorate.
3. Working towards cross-party support for Vince Cable to hold the position of Chancellor.

We are not affiliated with the Liberal Democrats, or any other political party.
